

NOMAD

OUTLAND WHISKY

Reserve

González Byass
Desde 1835
Familia de Vino

There was a time when the nomads revealed places, cultures and knowledge to us together with a **different way of looking at life**. Today, everything is changing and it seems that there is nothing left to discover, that the whole world enjoys the same things, at the same time and very fast. **But there is always an exception to the rule**. We simply need to sharpen our senses and look beyond the horizon, like a true nomad, **to discover something new and authentic**, a new frontier that only we have reached.

RESERVE 10 YEARS

AN EXCEPTION TO THE RULE

INTENSE COLOUR

Nomad Reserve 10 years ages in casks that have previously contained sherry, which gives it an **intense dark amber colour** and **balanced alcohol content of 43,1%**.

TRIPLE CASK

Its first ageing begins in Scotland, where it rests for **6 years in American oak barrels** infused with Sherry. It then goes off to Jerez, where it undergoes two further ageing processes. First two years in casks that have contained Pedro Ximenez and after that two more years in casks that have contained **Oloroso**.

THE PERFECT SERVE

50 ml Nomad Reserve
A dash of Still Water

A SENSE OF THE EXCEPTIONAL

Exceptional aromas on the nose, of malt mixed with the wine-like aroma from the Sherry.

Notes of wood, honey, toastiness, nuts, coffee and vanilla.

Full of flavour and smooth on the palate at the same time, it displays a great variety of subtle flavours – of oak, raisins and Sherry from the Scotch whisky and the Sherry that was once kept in the casks.

With a long, delicious finish, this is a very special, very high-quality whisky that combines the **character of a Scottish malt and the elegance of Sherry**.
