

WESTWARD AMERICAN SINGLE MALT BELGIAN ARDENNES

A whiskey that reflects our passion for creativity and our roots in craft brewing, Westward American Single Malt Belgian Ardennes was created from an Ardennes Farmhouse yeast from our friends at Culmination Brewing. This popular yeast – named for the Belgian Ardennes Forest and used in classic Saison, Farmhouse, and Trappist ales – was chosen for its banana, clove and black pepper notes as the perfect complement to Westward's signature dried fruit and baking spice flavors.

OUR INSPIRATION

A product of our innovative spirit, Westward American Single Malt Ardennes pays homage to our team of brewers-turned-distillers and their signature approach to whiskey-making: with an eye toward innovation while remaining focused on flavor and unparalleled quality.
