This unique Irish Whiskey is presented in a bespoke Maritime shaped bottle, inspired by the fishermen founders of West Cork Distillery, Ger and Denis McCarthy.

Both Ger and Denis were trawlermen off the coast of West Cork for many years before beginning a journey in 2003 that would build West Cork Distillers into Irelands largest Irish owned independent distillery employing 150 people in Skibbereen, West Cork.

Born from a conversation with the remaining founder John O'Connell in which he recalled vintage glass fishing-floats, the three founders set about designing a masterfully crafted custom-blown spherical bottle with an off centre spout which would aid a smoother pour of whiskey.

Many iterations later, the super-premium West Cork Irish Whiskey Maritime Release will go to market in late 2022.
