

ART & CRAFT SERIES

The M&H Art & Craft series provides a rare opportunity to discover some of the distillery's most intriguing, treasured casks. Every year, a collection of unique casks of exceptional quality is hand-selected by our Head Distiller, Tomer Goren, to be bottled as a highly limited edition as part of the M&H Art & Craft series. Each bottle carries a special label designed to capture the very essence of the Israeli art scene.

The M&H Distillery is Israel's first whisky distillery, established under the guidance of the late Dr. Jim Swan. Our whiskies are a result of passion, innovation and meticulous cask selection, matured to perfection under the Tel Aviv sun.

DOPPLEBOCK BEER CASK

SINGLE MALT WHISKY

This single malt whisky has been fully matured in ex-beer casks from the highly-acclaimed Ha'Aretz Brewery, a prominent Israeli craft brewery located on the edge of the Negev desert. These casks, originally ex-bourbon casks granted to Ha'Aretz by M&H, were in-turn used for the maturation of a special DoppelBock (double-bock) beer, characterized by a sweet aroma and a palate rich in chocolate and toasted malt notes. After 4-6 months, the beer was extracted and the casks returned to M&H, re-filled and matured to perfection for 3 years. One of the casks in the edition spent a full year of its maturation in the M&H Dead Sea Project, enhancing its flavor to the maximum.
