THE PRÁDLO WAY

Steeped in over nine decades of heritage, Prádlo is the longest running whisky distillery in Czechia. As Bohemians we've always created our own unconventional path using artistry, imagination and craftsmanship to produce a single malt whisky of uncompromising quality and character.

Every drop we make is lovingly created in exceptionally small batches under the watchful eye of our Master Distiller, Kristina Demelova, following techniques perfected over decades, which we proudly call the Prádlo Way.

Using the finest Czech barley and water from our very own underground source, our whisky is long matured in deeply charred casks made from 100% Czech oak, allowing it to develop luxuriously honeyed, nutty, spiced aromas and flavours, alongside a rich, golden amber colour.

We're deeply proud of our heritage, our whisky, its unique character, and, above all else, the fact that we've been quietly going about creating it using the Prádlo Way for over three decades now.
