The man on the label

One of the greatest inventors of his time, an engineer and explorer of the seas. Our inspiration, the man who invented the first submarine. Here's to you, Cornelis Drebbel. Join us in a toast, because there's a bottle here with your name on it.

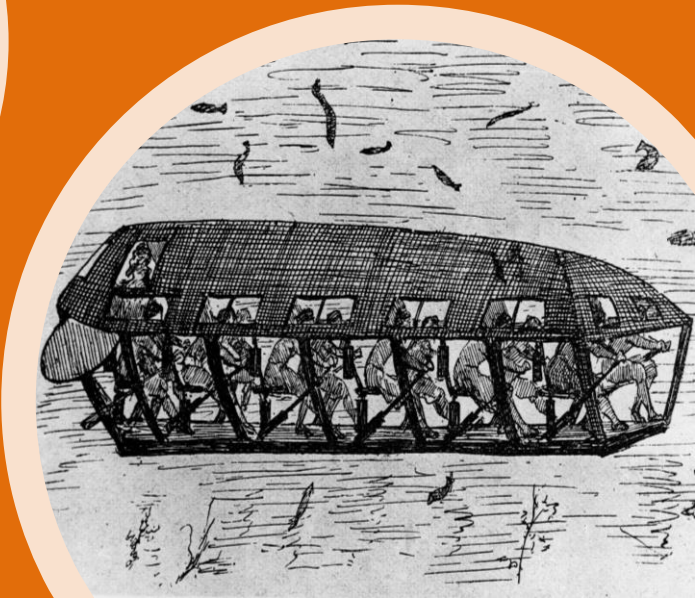

Cornelis Jacobszoon Drebbel was a Dutch renaissance engineer, inventor, painter, alchemist and explorer. He was the builder of the first navigable submarine in 1620.

Cornelis Drebbel was born in Alkmaar, Holland in 1572 and around 1604 the Drebbel family moved to England at the invitation of the new king, James I of England.

The Drebbel

In 1620 Drebbel built the first navigable submarine while working for the English Royal Navy. This model was demonstrated to King James I in person and several thousand Londoners. The submarine stayed submerged for three hours and could travel from Westminster to Greenwich and back, cruising at a depth between 12 and 15 feet. Drebbel even took James in this submarine on a test dive beneath the Thames, making James I the first monarch to travel underwater.

CENTURIES OF DUTCH DISTILLING TRADITION

The Original Drebbel London Dry Gin is hand crafted according to centuries of Dutch distilling tradition, it is smooth with the fresh citrus peels adding a lovely freshness. Juniper and coriander seeds give it its distinctive gin flavour. We use as many as eight botanicals sourced from all over the world for extra depth and complexity.

March 31, 1603

Cornelis Drebbel and his brother in law, the famous engraver and painter Hendrick Goltzius, buy a house in Haarlem. St. Jansstr. 61-63, adjacent to the Begijnhof.

SMALL BATCH
LONDON DRY GIN

UNIQUE SMALL BATCH DISTILLING

BONATICALS

All botanicals are 100% natural
and carefully hand selected

COPPER STILL

Distilled in Holland in a 50-
year old copper pot still.

SMALL BATCH

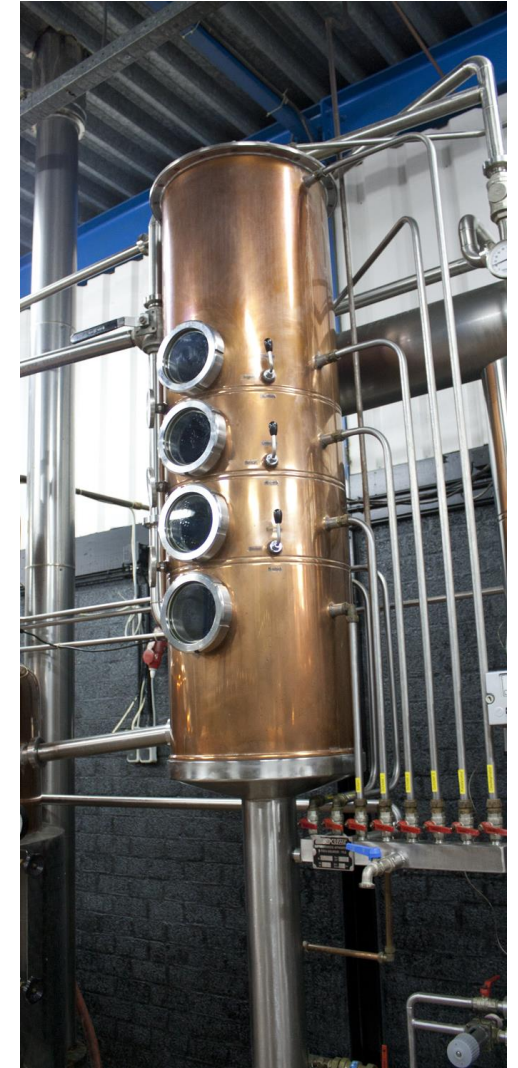

Unique small batch distillation
method using fresh lemons hand-
picked from Southern Spain

Handcrafted

Drebbel Gin is a premium Gin produced by traditional artisanal methods. All Botanicals are 100% natural and are carefully selected and processed by our Master Distiller into the most beautiful Gin.

Drebbel is a traditionally distilled London Dry Gin, with a fresh character from the Hand-Picked citruses used. We use eight botanicals and distilled alcohol from selected grain from the finest cornfields in France.

Purity

Drebbel Gin sources its water from a virtually untouched natural local reservoir located at 100 meter deep wells and are considered the purist water in Holland. These deep wells located in the largest natural park, known for its sandy ground have great filtering characteristics removing even the smallest impurities

ALL NATURAL BOTANICALS

DREBBEL dry gin is distilled from eight botanicals: juniper berries and orris root from Italy, coriander from Morocco, angelica from France, sweet oranges and fresh whole lemons hand picked from southern Spain, ginger root from India, liquorice from China and whole vanilla sticks from Madagascar.

Fresh citrus Fruits: sweet
Oranges and whole
lemons from Spain

100% natural botanicals

SMALL BATCH DRY GIN DISTILLED WITH

8

HAND PICKED NATURAL BOTANICALS

Juniper
Berries
From Italy

Juniper gives Gin its signature fresh and piney taste. Without Juniper there is no Gin (and no Jenever). By distilling the Juniper soft sweet tones are released.

Angelica
(Root) From
Saxony

The earthy taste of the root of the Angelica plant used in Drebbel Gin is grown in France and is used to keep all taste notes in balance.

Orris
(Iris Root)
From Italy

Orris needs time. After growing at least 3 years in the nice climate of Italy it can be harvested and dried to a very hard root that can be ground to a powder.

Coriander
(Seeds) From
Morocco

The seeds are the most important contributor to the citrus tones in Drebbel Gin. The seeds are carefully selected after having grown.

Vanilla sticks
From Madagascar

The vanilla from Madagascar gives a nice creamy note, but it's balanced by the earthier Angelica and enhanced by the citrus of the Lemon and Coriander.

Liquorice
From China

The licorice from China gives the Drebbel Gin the extra sweet note combined with the Anise aroma for a great taste.

Lemon Peel
From Spain

The juicy Lemon from Murcia Spain provides Drebbel London Dry Gin with a nice citrus flavor, sweet and juicy. Our lemons are hand-picked.

Ginger
From India

The Ginger from India gives Drebbel London Dry Gin an exotic flavor with a nice bite that ends in a long taste with the note of lavender.

A TRULY UNIQUE INVENTION

Drebbel Premium London Dry Gin was originally created to be simply 'The World's Best Gin' without regard to how much it cost to produce or how long it took to make. With this utmost in mind, Drebbel Master Distiller set about sourcing only the very finest of natural ingredients to make this gin and thought it only fitting to call it Drebbel Gin in Honour of Cornelis Jacobzoon Drebbel as a contribution to his great inventions.

GIN & TONIC

RECIPE

A slice of lime

A sprig of rosemary

2 oz Drebbel London Dry Gin

Tonic

Muddle lime at the bottom of a Collins glass

Place rosemary in Collins glass and then fill glass with ice

Pour Drebbel London Dry Gin and then top with tonic

Stir concoction with rosemary sprig and serve

DREBBEL GIN

USE THEIR GIFTS RIGHTLY

- A small-batch distilled gin
- Distilled from all natural botanicals
- Handcrafted in Holland
- The gin is distilled using a unique distillation method.
