

CLÉMENT CANNE BLEUE 2025

RHUM AGRICOLE APPELATION MARTINIQUE CONTRÔLÉE

To celebrate its 25th anniversary, Clément Canne Bleue 2025 goes into neon mode, making it just as striking by day as it is by night.

PRODUCT ORIGIN

The Canne Bleue rum from Rhum Clément is the world's first agricultural rum distilled exclusively from the juice of a single variety of sugarcane: the Canne Bleue. This variety is distinguished by its bluish-purple hue and its particularly fruity aromatic potential.

ELABORATION

After the juice is extracted, fermented, and distilled, several months of preparation follow before bottling, involving alternating phases of stirring, resting, and gradual reduction through micro-aeration using a micro-perforated stainless-steel arm inserted into the stainless-steel vats.

TASTING NOTES

NOSE: Dominated by white flowers and orange blossom, with notes of honey and exotic fruits such as pineapple, mango, and banana.

PALATE: Round and floral, highlighting sugarcane, balanced by aromas of anise, pepper, vegetal notes, and a honeyed finish.

FINISH: Balanced and refreshingly fresh.

DEGUSTATION RECOMMANDATION

It can be enjoyed just as well in a classic Ti'Punch as in creative cocktails!
