LIQUEUR CLÉMENT BANA CANNE

PRODUCT ORIGIN

The innovation in the Clément Liqueur collection, Bana Canne is a banana liqueur blending the island's primary agricultural pursuits—sugarcane and banana.

PROCESS

Blend of Clément Blanc, cane sugar syrup and natural banana extract produced in a low energy way from bananas grown on the Habitation Clément property alongside the sugarcane used to create the Rhum Agricole. The blend is mixed in the stainless-steel vat room.

TASTING NOTES

A very intense, round liqueur with a nose marked by the aroma of banana and a hint of star anise.

On the palate, the attack is smooth with fruity aromas of peeled banana fruit, accompanied by a vegetal and tangy note that adds freshness.

The finish is persistent, evoking the sensation of just-bitten banana.

BEST SERVE

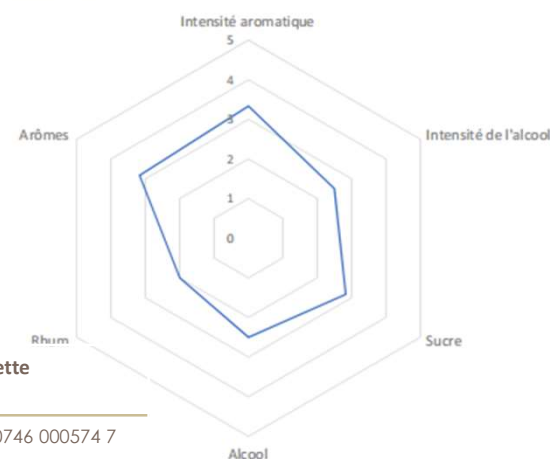

This liqueur BANA CANNE can be enjoyed neat, on the rocks or in a cocktail.
