

EL TEQUILEÑO REPOSADO RARE

The world's first Reposado Rare is a limited release offering. We aged this exquisite tequila for 6 year in a unique manner by using a large American Oak barrel, called a Pipón, with 25,000-liter capacity. Although it has been aged more than 3 years, it cannot be called an Extra Anejo due to the size of the barrel size. However, the resulting Reposado is most definitely 'Rare' with complex flavors and exceptional depth.
