GRAINSTORM

LOCH LOMOND SINGLE GRAIN WHISKY

GRAINSTORM is the name we give to our range of whiskies that we produce in our Coffey Style still. Right up until the point of distillation this whisky is made in exactly the same way as our malt whisky – 100% malted barley and long fermentation, but the Coffey Still changes the flavour of the spirit. At Loch Lomond we are all about putting flavour in at the start of the process and this whisky is no different. The GRAINSTORM range allows us to explore flavour through the remarkable Coffey Still and perhaps through different grains in the future.

LOCH LOMOND

SINGLE GRAIN SCOTCH WHISKY

Founded in 1814 our proud tradition of making quality blended single grain and single malt whisky on the shore of Loch Lomond ensure each of our whiskies is a fine example of its region and style. Indeed, wherever in the world you may be, when you enjoy our whisky, you're experiencing the spirit of a very special place.

This remarkable expression is made from 100% malted barley and distilled through our continuous Coffey style still – hence its categorisation of Single Grain Scotch whisky. This expression is smooth, sweet with added complexity not usually found in a single grain

Matured in the finest American oak casks under the watchful eye of Michael Henry, our master blender, ensures the perfect harmony of flavour and aroma
